

Conversational AI

From customer service chatbots to home automation and other voice command products, we have the tools to help with every step of your Conversational AI project

Whether you're at the beginning of your project or validating a chatbot already in the real world, we offer all the tools to complete your projects from start to finish. Let's take a look at how we support one of the most common Conversational AI projects - building a chatbot.

If you're in the business of creating Conversational AI products, you've come to the right place!

About Us

Appen collects and labels images, text, speech, audio, video, and other data used to build and continuously improve the world's most innovative artificial intelligence systems. Our expertise includes having a global crowd of over 1 million skilled contractors who speak over 180 languages, and the industry's most advanced AI-assisted data annotation platform. Our high-quality training data gives leaders in technology, automotive, financial services, retail, healthcare, and governments the confidence to deploy world-class AI products. Founded in 1996, Appen has customers and offices globally.
